CLEAR SKY / Club Software Integration

Clear Sky Software is pleased to provide integration between major club software companies and Clear Sky FOOD & BEVERAGE, our F&B inventory management solution. Now the club industry has a complete F&B inventory system integrated with the leaders in club management. Clear Sky FOOD & BEVERAGE tracks F&B products from the point of purchase, through receiving and ultimately issuing to bars, restaurants, and other revenue-generating outlets. By importing sales data from club software vendors and comparing it to F&B inventory allows our system to produce true costs reports by location. This information helps our customers quickly identify profitable locations and locations with profit-draining high costs. The following companies are integrated with Clear Sky Software.

Clubessential	Jonas
Clubsystems Group	Northstar

ADDITIONAL FEATURES & BENEFITS

The Clear Sky / club software Integration can also assist accounting. When receiving food and beverage products into Clear Sky Software, users can enter invoice numbers and amounts at the Clear Sky receiving screen. Then once these receipts are saved, the invoices are available for export to the club software Accounts Payable module for updating.

The A/P export from Clear Sky to your club software includes:

- Invoice Date
- Vendor
- Invoice Number
- Invoice Amount
- Receipt Date
- Specific GL Codes & Corresponding Amounts

The screenshot shows the 'Vendor Receive' screen in the Clear Sky Software. The interface includes a top navigation bar with 'Beverage' and 'Food' tabs, and buttons for 'Help - F1', 'DataSync', 'Log Out', and 'Exit'. Below this are buttons for 'Requisition', 'Issue', 'Vendor Receive', 'Order', 'In House Return', and 'Vendor Return'. A sidebar on the left contains various tool categories: 'Daily Activities', 'Perpetual Info', 'Event Tools', 'Inventory Tools', 'Sales Tools', 'Reports', 'Inquiry', 'Master Files', 'System Tools', and 'About'. A notification indicates '11 Adjustments Required'. The main area features a date range selector (Friday, January 01, 2016 to Thursday, April 21, 2016) and a search bar. A table displays the following data:

	Invoice Date	Vendor	Invoice	Invoice Amount	Submit	Submit Method	Submit Status	Submit Date	Submit Result	Submit Error Description	Submit Retry Count
